

APPLICATION TAPES :

- Available in paper and transparent film.
- Many grades and brands available.
- The paper products can be used for standard graphical application and can also be used for laser masking.
- The standard and premium paper application tape are of very high quality as well as the film product which are very clear.
- The excellent transparency makes the film range application tape for multi-color signs.

HDPE TAPES :

HDPE tape are used in jointing jobs in the connected industries and where HDPE cloth and bags are used so this tape blends in each of its colours and acts as edging in monsoon sheds, covering of trucks as rebiting ends and etc.

- Heavy duty, Water resistance packing tape made from HDPE fabric.
- High tensile strength, Strong adhesion and surface adherence.
- For packaging, sealing, jointing, reinforcement, patching of HDPE bags/cartons, wire/rope bunding, etc.
- Available in various colours.

SURFACE PROTECTION & FLOOR GUARD TAPES :

It is used for the protection of surfaces finishes from dirt, scratches and tool marks during handling, transport, storage, forming, assembly etc. it can be used to protect glossy or semi glossy materials, such as prepainted metal (test required), acrylic sheets (PMMA), polycarbonate (PC), Polyesterene (PS), rigid PVC, cold stainless steel, decorative laminates, non anodized aluminium, car bodies (use indoor only). The film can be printed in one or two color for bulk orders. It must be applied to clean and dry surface with the aid of a laminating and machine. The film must be applied without excessive tension.

FILAMENT TAPES :

A Self adhesive Tape which has been specially designed for applications requiring a high breaking strength. This tape has a film backing and rubber adhesive. Woven glass fibers reinforced the backing, making this product extremely strong when used for heavy packing where it can replace metal and polypropylene strapping to great advantage.

ALUMINIUM FOIL TAPES :

- For general purpose seaming, patching and sealing.
- Highly suitable for sealing off air conditioning and cool/warm air flow ducting.
- For sealing joints in ducting providing a flame retardant & vapor-proof barrier.
- Excellent adhesion on dry/clean surfaces on metal and other surfaces.
- These foil tapes can be applied for both high temperature/low temperatures.
- Sizes available from 25mm/50mm/75mm/100mm in width to customized length.
- Available from 25 micron. in thickness.

ALSO AVAILABLE

- Acrylic Foam Tapes (various types)
- Heat sealing Tapes.
- Teflon cloth Tapes.
- DS Polyester Tapes (Various Types)
- Gasket tapes (black & white foam)
- Single side foam tapes.
- Spacer tapes.
- Super clear bopp tapes for lamination.

VIRAG INDUSTRIES PVT LTD

Manufacturers, importer, exporter of all kinds of adhesive tapes

Gat No.258, Opp. National Weight Bridge, Jyotiba Nagar Talwade, Pune 411 062

Ph : 7038899703 / 9822094645 / 9112420303

Email ID - primeent9@gmail.com

BOPP TAPES :

(PLAIN/PRINTED/COLOURED)

- EZ-OPP is Biaxially oriented polypropylene
- (BOPP) Film coated water base adhesive.
- Printed of single and multiple colors is also possible with logo or customized design.
- Printed with company's logo, it is a self promotion display platform for enterprise.
- It is very good for cartoon box sealing and for stationary purpose.
- Best option to go for branding purpose.
- Provides packaging and sealing solution for both domestic and industrial needs.

BEST SELF ADHESIVE TAPES FOR MULTIPLE SOLUTIONS

PRODUCTS CATALOGUE

FLOOR MARKING TAPES :

- Uniform thickness and width through out the length
- Better performance compare to paints
- It resists water, weather, acids, alkalies, oil, greases and gasoline
- Free from wrinkles and air bubbles making it easy to apply uniformly without distortion and frayed edge
- Special dispenser available.
- Colour Available Red, White, Yello, Green, Blue, Black, Yellow/black.

REINFORCED PAPER TAPES :

- Lamination with fibreglass, Specially for reinforced purpose. very high tensible strength.
- High adhesion.
- Good Packaging results.
- This type with fibreglass backing is designed for heavy packaging in economical way.
- High resistance to abrasion while transporting.
- Recommended for export packing.
- Brown & White colour available.
- Enviroment friendly, temper proof.
- Printed version also available.

D/S POLYSTER TAPE (A-89) :

- Self-adhesive tape consisting of a PET backing and a modified acrylic adhesive with transparent salmon pink colour PE Liner.
- High Bond Tape used in many applications required high tensible strength and long terms ageing.
 - This tape Provides a strong rigid bond for the most demading external applications.
 - It is excellent for bonding rigid extrusions and is transparent finish.
 - Most suitable for fixing of refection foil to
 - LCD frame, splicing of thin plastic films, flex to flex joning.

DUCT & BOOK BINDING TAPES :

- Ideal for insulation, underground pipeline, correction & Abrasion protection.
- Good resistance to moisture, humidity.
- Possesing outstanding coformity.
- It is designed for industrial or pipe wrapping.
- Colors available: Black, Red, Pink, Silver Grey & Many More.

KRAFT PAPERS TAPES :

- Strong adhesive ability.
- Goods performance in re-stripping & packaging.
- Recommended for Export packing.
- Environment Friendly.

VIRAG MASKING TAPE :

- High performing multipurpose masking Tape
- Resistent to Strong solvents and paints.
- Goods holding power.
- Excellent for many individuals applications.
- Will not tear while removing.
- No adhesive transfer after removal.

DOUBLE SIDED TISSUE TAPES :

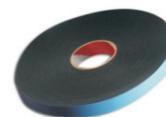

- Excellent Quick double-stick. strong adhesion hand tear-able. A perfect substitute to replace glue for bonding.
- Non-deteriorating. applicable for decoreation, postal service & laminating.
- Ideal for holding and joining of light weight items in office and household application.
- various sizes and grades available.

STRUCTURE GLAZING TAPES :

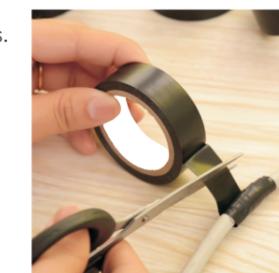

GHB 200GR Structure glazing tape is 2.03mm thick pressure sensitive double side acrylic adhesive tape for bonding glass to anodized and unpainted metal which is used for construction of structural glazin projects. GBH Structure glazing tape is appropriate for application which demand a thicker conformable product.

- Thickness : 2.03
- Tape colour : Grey
- Liner : Red PE Film
- Size : 12mm*6.5mts

PVC INSULATION TAPE :

- Reliable Self -extinguishing electrical insulation tape.
- Strechable/Grips firmly.
- Moulds it self to any surface.
- Resistance to acidic, alkalies & oils.
- Water proof, wheather proof & noon-ageign.
- Insulation & protection to wire of electrical appliances & Machines.
- Holding & Insulating Various Transformer, capacitors, Communication systems & Instruments.

DOUBLE SIDED FOAM TAPES :

- Various grades available for wide range of bonding applications.
- Tape with both side adhesive coating suitable fo wall mount picture, cable tie-mounts and multi applications.
- Suitable for clean and smooth walls, ceramic tiles and wooden sufaces.
- Tailor made shapes are available.

CURTAIN WALL TAPES :

GHB 120GW Curtain wall tapes is 1.2mm thick pressure sensitive double sided acrylic adhesive tape for bonding of aluminium composite panels to various anodized and unpainted metal structures. curtain wall tape has excellent temperature resistance.

- Thickness : 1.2mm
- Tape Colour : Grey
- Liner : White& Red PE Film
- Size : 12mm*8.5mtr

STRETCH FILM :

- Use for fast wrapping.
- Use for protecting from dust and scratch proof.
- Standard size 20" inch, 18" inch, 12"inch, 6" inch.
